

Crusader Athletics 2017-2018

On behalf of Coral Springs Christian Academy, welcome to Crusader Athletics.

Crusader Athletics seeks to be the premier athletic program in South Florida that develops well-rounded athletes in a variety of sports; teaches young men and women to glorify God, attain their goals, and maximize their talents; creates a community of supporters inside and outside of the school body; and fosters a growth mindset among coaches, players, and supporters.

We believe that athletics offer opportunities for young men and women to learn impactful lessons that will affect them throughout their lives, and to build lasting relationships. Great coaches capitalize on the opportunities presented in athletics to assist parents in instilling a Bible-centered understanding of competition and leadership.

This packet of information will provide you with everything you will need to know regarding athletics for the 2017-2018 school year. ***All forms included in this packet must be completed and returned before your child will be permitted to participate in athletic events, including try-outs.*** Please pay careful attention when reading through this packet, as the information contained within it pertains to all sports offered here at CSCA.

If for any reason you have questions, please contact myself at 954-205-9636 or caholz@cscsca.us, or contact Assistant Athletic Director Greg Severine at gseverine@cscsca.us.

We are looking forward to a great year of Crusader Athletics!

Key Policies of Crusader Athletics

Expectations- Students, parents, coaches, and fans are to demonstrate Christian principles in all circumstances. It is expected that everyone associated with CSCA team sports will support and encourage our players as well as one another.

Our athletes are expected to try to play their very best with an appropriate Christian attitude at all times. They are expected to behave properly at school, at home, and on the playing field. They are expected to excel academically and spiritually as well as athletically. They are expected to be champions for Christ and positive role models.

All student athletes are expected to meet and, whenever possible, exceed the Standards for Excellence at CSCA. Parents and fans are expected to properly support and encourage all of our players and treat the other teams and officials with respect and dignity. Players, Parents, and Fans will be humble in victory and gracious in defeat. Any consequences for failing to meet these expectations will be determined by the CSCA Athletic Director and the Head Coach.

Competition- Coaches are expected to use each player's gifts to allow the individual and the team to compete at the highest level. Our younger age teams will focus on fun, with playing time for all being evenly distributed. As the players move up, the competition will increase accordingly. Some players will start, others will be subs, and some may receive very little playing time. At the Varsity level, all parents and fans will support the philosophy that our best players will play. It is our belief that all games should be played to win with integrity, through a Christ-honoring approach.

Team/Player Selection- All teams shall have a designated try-out period to be determined by the Head Coach. Players will be selected based on attitude, grades, "coach-ability", and talent.

The number of players on a team will be large enough to have a strong competitive team, but not too large to deter from the individual attention each player deserves when playing on a school team. We do not want to "cut" anyone from a team; however, our coaches will choose those most qualified to represent the school in the particular activity.

Academic Eligibility- CSCA will follow the Florida High School Athletic Association (FHSAA) rule requiring students to maintain a 2.0 cumulative grade point average (GPA). Each student's GPA will be checked at the start of each semester.

Quitting a Team- Any student athlete who quits a team after being named a member of that team will be ineligible to participate in the next season or sport.

Uniforms- The coach will distribute school team uniforms in the beginning of the season. It is the responsibility of the player to take proper care of the uniform and have it ready for games. Each coach will determine what is to be worn to school on game days. We expect student athletes to be in full compliance with the CSCA dress code at all times. All school team uniforms must be cleaned and returned at the end of the season. Lost or damaged uniforms are the responsibility of the player/parent.

Volunteering- It is the expectation for all CSCA Athletes that at least one parent will volunteer for two games during the season in which their child participates. We have made it a focus to provide opportunities for volunteering where you can still watch your son or daughter compete. Sign-up sheets will be distributed at the start of each season.

I hereby acknowledge receipt of and agree to abide by the policies of Crusader Athletics. I will encourage my son or daughter to understand and abide by these policies as well throughout the school year.

Consent and Release from Liability Certificate for Concussions (Page 2 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: _____ School District (if applicable): _____

Concussion Information

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vacant stare or seeing stars
• Lack of awareness of surroundings
• Emotions out of proportion to circumstances (inappropriate crying or anger)
• Headache or persistent headache, nausea, vomiting
• Altered vision
• Sensitivity to light or noise
• Delayed verbal and motor responses
• Disorientation, slurred or incoherent speech
• Dizziness, including light-headedness, vertigo(spinning) or loss of equilibrium (being off balance or swimming sensation)
• Decreased coordination, reaction time
• Confusion and inability to focus attention
• Memory loss
• Sudden change in academic performance or drop in grades
• Irritability, depression, anxiety, sleep disturbances, easy fatigability
• In rare cases, loss of consciousness

DANGERS if your child continues to play with a concussion or returns too soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

Steps to take if you suspect your child has suffered a concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

Return to play or practice:

Following physician evaluation, the return to activity process requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit http://www.cdc.gov/concussioninyouthsports/ or http://www.seeingstarsfoundation.org

Statement of Student Athlete Responsibility

Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson's-like symptoms, Amyotrophic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view "Concussion in Sports-What You Need to Know" at www.nfhslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

Consent and Release from Liability Certificate for
Sudden Cardiac Arrest and Heat-Related Illness (Page 3 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

School: _____ School District (if applicable): _____

Sudden Cardiac Arrest Information

Sudden cardiac arrest is a leading cause of sports-related death. This policy provides procedures for educational requirements of all paid coaches and recommends added training. Sudden cardiac arrest is a condition in which the heart suddenly and unexpectedly stops beating. If this happens, blood stops flowing to the brain and other vital organs. SCA can cause death if it's not treated within minutes.

Symptoms of sudden cardiac arrest include, but not limited to: sudden collapse, no pulse, no breathing.

Warning signs associated with sudden cardiac arrest include: fainting during exercise or activity, shortness of breath, racing heart rate, dizziness, chest pains, extreme fatigue.

It is strongly recommended all coaches, whether paid or volunteer, are regularly trained in CPR and the use of an AED. Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date.

Automatic external defibrillators (AEDs) are required at all FHSAA State Series games, tournaments and meets. The FHSAA also strongly recommends that they be available at all preseason and regular season events as well along with coaches/individuals trained in CPR.

What to do if your student-athlete collapses:

- 1. Call 911
2. Send for an AED
3. Begin compressions

FHSAA Heat-Related Illnesses Information

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body's natural air conditioning, but when a person's body temperature rises rapidly, sweating just isn't enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

Heat Stroke is the most serious heat-related illness. It happens when the body's temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

Heat Exhaustion is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

Heat Cramps usually affect people who sweat a lot during demanding activity. Sweating reduces the body's salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

Who's at Risk?

Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.

By signing this agreement, the undersigned acknowledges that the information on Sudden Cardiac Arrest and Heat-Related Illness have been read and understood. I acknowledge optional educational opportunities in cardiac arrest at www.nfhslearn.org. Please go to www.fhsaa.org/departments/health for further instructions to view the courses. I have been advised of the dangers of participation for myself and that of my child/ward.
